Item		Parameter	
Size		85.5×54mm	
Chip		H3	
Material		PVC	
Package		200pcs / box, 2400pcs / carton	
Coding method		Dot coding	
Working frequency		860-960MHz (ISO/IEC 18000-6C, EPC Class1 Gen2)	
Operating mode		Passive	
Storage area	ECP area	96bits	Read and write
	TID area	32bits	Only read
	Unique TID area	64bits	Only read
	password area	32bits 访问密码 32bits 毁灭密码	Read and write
	User area	512bits	Read and write
Recognition distance		About 6m(Different read heads, different reading distances)	
Operating temperature		-20~60°C
