OR1112 Tear-proof label specifications

Introduction: Tear-proof label, unique anti-transfer design, make the label dismantled immediately, and play the role of anti-demolition and anti-adjustment package. It is often used for asset inventory and anti-counterfeiting.

Item	Parameter
Size	113*6 mm
Chip	ImpinJ / Monza R6-P
Standards compliant	ISO 1800-6C
Applicable carrier frequency	860～960MHz
Operating mode	Passive
Chip life	Write 100,000 times, data saved for 50 years
Chip anti-static (ESD) performance	Maximum 2000V
Operating temperature / humidity	－5～60℃/ 20%～80% RH
Storage temperature / humidity	20～30℃/ 20%～60% RH
