

OR1107 Ear tag specifications

Introduction: All packaging and labeling information such as RFID ear tags, single-roll label outer packaging, and single box outer packaging are neutral; surface variable data is printed by the customer according to his needs, and is mostly used for asset management.

Item	Parameter	
Manufacturer / Chip	Impinj/Monza 4D	
Antenna size	46X30MM	
Base material	PET	
Process method	Aluminum etching	
Standards compliant	ISO/IEC 18000-6C	
Carrier frequency	Global 860 – 960 MHz	
Reading distance	2-4 米(The reading distance varies with different powers in different environments)	
Operating mode	Passive	
Service life	50 年	
Chip antistatic	± 2kV	
Chip storage	EPC	128 bits
	TID	48 Bits
	Unique TID area	48 bits
	Password area	32Bits Access password
	User	32 bits
